Description

ADQ is a ceiling diffuser. The product is mainly intended for air supply and can be used for air extract as well. The product is installed into ceilings. The field of application is offices, shops, medical rooms, school classrooms, etc.

Accessories

- PB-VVK-S: Plenum Box
- UR-ADQ: Mounting Frame
- R-ADQ: Adjustment Damper

Design

ADQ is manufactured from anodized aluminium with satin finish. The product is powder painted to RAL9003 (signal white) as standard. Other RAL colours are available upon request.

NOTES:

¹ For the ADQ types with 2 sizes (600/xxx):

The first size (600) is the overall diffuser size.

The second size determines the boundary dimensions of the diffuser effective area.

This type of diffusers is foreseen for installation in the T-bar suspended ceiling.

² If no colour is defined in ordering code, the diffuser will be delivered in signal white colour RAL9003 gloss 30.

Example of the Ordering Code

ADQ-400-SW

ADQ ceiling diffuser size 400, without damper. In signal white colour (RAL9003).

Accessories

PB-VVK-S

Plenum Box

Description

The PB-VVK-S is square face plenum box with a horizontal or a vertical connection and internal or external insulation.

Design

The plenum box is made of galvanized sheet as a standard.

There are 2 types of connection:

- D1: a simple spigot without a seal, with a damper
- D2: a pressed spigot with a seal including the Zeus damper

The product can be equipped by 15 mm thick internal insulation and/or 6 mm thick external insulation.

Zeus damper

Zeus is a control damper of the PB-VVK-S...D2 plenum box. It contains impulse tubes for measuring differential pressure using a portable measuring device. It can be adjusted manually using a cable gearing.

D2 Pressed tight spigot with the Zeus damper ¹

Insulation

I2 With internal insulation ²

J With external insulation ²

NOTES:

¹ If the spigot type is not entered in the ordering code, type "D1" will be supplied by default. It is not possible to order the Zeus damper for the product PB-VVK-S with horizontal connection. Plenum boxes with a vertical spigot D2 are supplied without a mesh screen.

² The internal and external insulation also can be applied together. In case the insulation type is not entered in the ordering code, the product PB-VVK-S will be supplied without insulation.

Example of the Ordering Code

PB-VVK-S-300-160-E-H-D1-I2

Square plenum box with nominal size 300 mm, spigot with diameter 160 mm, extract without mesh screen, horizontal connection (from the side), spigot type D1, internal insulation.

UR-ADQ

Mounting Frame

Description

UR-ADQ is a mounting frame for ADQ diffuser made from galvanized steel. It enables to install ADQ without plenum box.
NOTE: The UR-ADQ mounting frame excludes the use of any other accessory with the same diffuser.

R-ADQ

Adjustment Damper

Description

R-ADQ is an opposed action blade adjustment damper for ADQ made from galvanized steel. It enables installation and flow volume adjustment on ADQ installed without plenum box.

NOTE: The R-ADQ adjustment damper excludes the use of any other accessory with the same diffuser.
